

Relax, Indulge & Renew

with Forever's

Aroma Spa Collection

AROMA SPA COLLECTION: This new 3-piece collection of aromatherapy spa products will indulge you in the ultimate in-home spa experience. Forever Living has once again delivered products using the highest quality ingredients! The Dead Sea Salts found in Relaxation Bath Salts have been used for centuries to feed essential minerals back into the skin. Lavender is known to lift the spirits, calm the soul and restore the skin. So, treat yourself to this luxurious spa collection and enjoy the skin conditioning benefits of aloe vera and the calming powers of these select essential oils. Give yourself a treat!

Lavender is coveted the world over as a soothing and versatile essential oil. Its restorative scent has long been valued as a stress reducer. Its rejuvenating and soothing properties make it a natural in skin care preparations. As well as blending beautifully with other essential oils, Lavender can soothe the body and rejuvenate tired and dry skin. Forever Living has infused this entire Aroma Spa Collection with the immensely soothing and renewing properties of Lavender.

RELAXATION BATH SALTS: Combine legendary Dead Sea Salt, Lavender and other essential oils, and you've got a 'health spa' in a bottle. The Dead Sea is renowned for its restorative properties. Unlike other bath salts, Dead Sea Salts have high concentrations of a wide variety of minerals. It is these minerals that are sought after the world over for their rejuvenating abilities. These qualities were once reserved for the lucky few who could travel to the Dead Sea or who could afford visits to European-style spas. Instead, just add two tablespoons of Relaxation Bath Salts to your bath and breathe in the aroma "therapy" of lavender while the salts work their magic. No reservations required!

RELAXATION SHOWER GEL: Apply this fragrant shower gel directly to your bath water or your skin for a relaxing and skin-soothing experience. Relaxation Shower Gel is formulated with the moisturizing and soothing power of aloe vera. Aloe vera can add a rich supply of building materials to help maintain healthy skin due to its content of essential amino acids. Combined with essential oils and fruit extracts including Lavender, Bergamot Orange and Cucumber, you will enjoy a full sensory experience. Use Relaxation Shower Gel with our very own loofah to help remove dead skin cells and reveal its moisturizing, skin-silkening power.

RELAXATION MASSAGE LOTION: Our new Relaxation Massage Lotion will leave you feeling pampered from head to toe, all without leaving your home. We've taken the skin-conditioning benefits of Aloe Vera, essential oils from the aromatic blossom of Bergamot Orange Fruit, White Tea and fruit extracts and the restorative properties of Lavender to create this emollient, non-greasy massage lotion. Your skin will drink in its nutritive powers and you'll love its fresh scent. Apply directly after bathing or showering to help protect and moisturize your skin. You will feel its permeating effects all day long!

So take the plunge into this collection of spa products and create that restorative environment you desire. This is your time to relax and renew.
